African Swine Fever (ASF)**

PROTECTION AGAINST AFRICAN SWINE FEVER

PROTECTING YOUR PIG FARMS

ACT TO PREVENT

African swine fever (ASF) is a highly contagious disease that poses a serious threat to pig and wild boar farms. Although it is harmless to humans, it nevertheless causes major economic and health losses. Preventing its spread is essential to protect our pig farms and preserve an entire industry.

By taking simple but effective preventive measures, everyone - farmers, hunters, transporters and the general public - can help to limit the risks. This brochure provides a step-by-step guide to the actions you need to take to strengthen biosecurity, detect warning signs and take action in the event of suspicion. Let's work together to protect our future.

ASF is present in more than half the countries of the European Union. France, which has been spared until now, remains highly exposed to the risk of the disease being introduced through meat and pig products from infected countries, or the arrival of infected wild boar.*

UKAL: YOUR ALLY FOR EFFECTIVE PREVENTION

For more than 50 years, UKAL has been working alongside farmers **to guarantee the health and safety of their livestock**. Experts in small livestock equipment, we offer a **complete range of prevention solutions** adapted to the fight against African swine fever.

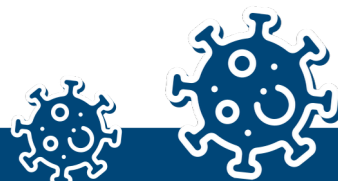

PROTECTION SYSTEMS FOR FARMS

- We offer robust, high-performance electric fencing that provides **effective protection against intrusion** by wild boar and other game. Designed to meet the needs of livestock farmers, they combine durability with ease of installation.
- When it comes to hygiene, we provide you with professional equipment: **foot baths, protective clothing and high-performance cleaning products**. Each piece of equipment is selected to ensure optimum hygiene.

UKAL : A HIGH-PERFORMANCE RANGE
DEVELOPED BY PROFESSIONALS,
FOR PROFESSIONALS

SOLAR ENERGISER SOLAR 25 UKAL

Sku. 125UKA109

The SOLAR25 is a powerful, multi-purpose solar-powered station for guarding several species. It has an internal **12V battery (12 Ah)** and a **24W solar panel** in 3 sections for 100% autonomous operation.

- Input voltage : 12 V
- Stored joules : 2.5 J
- Output joules : 1.8 J
- Number of nets : 18
- 3-years warranty

MAINS ENERGISER M70 UKAL

Sku. 125UKA102

The M70 is a high-performance, multi-purpose mains unit for guarding several species. It is equipped with a **230V dual output** mains power supply.

- Input voltage : 230 V
- Stored joules : 7 J
- Output joules : 4.8 J
- Number of nets : 30
- 3-years warranty

BATTERY ENERGISER B32 UKAL

Sku. 125UKA106

The B32 is a battery-powered multi-purpose station with excellent long-distance performance for guarding several species. It is powered by a 12V battery.

- Input voltage : 12 V
- Stored joules : 3.2 J
- Output joules : 2.24 J
- Number of nets : 20
- **Recommended battery 125083101 (not included)**
- 3-years warranty

10 STAND-OFF INSULATORS ELITE UKAL

Sku. 125H14937

The UKAL ELITE range is ideal for insulating fence wires, cords and tapes up to 10mm wide. It features a wide screw for optimum fixing to fence posts. The screw is moulded into the insulator for greater strength. It has a UV treatment for better resistance.

- Colour: black
- Packaging: 10 insulators
- Length of insulator: 19 cm excluding screws

WHITE AND BLUE ROPE Ø 6MM 200M ELITE UKAL

Sku. 125UKA302

The UKAL ELITE range consists of 0.3 mm diameter **TLD conductors** for optimum conductivity. This rope offers a guarding distance of 400m and can be used to secure paddocks for horses, cattle, pigs, sheep and wild animals. Highly resistant, it has anti-UV protection for better resistance over time.

- Length : 400 m
- Diameter: Ø 6mm
- Conductors: TLD 6 x 0.3 mm + 9 PP
- Resistance: ohm/m: 0.12
- Breaking load: 62 kg
- Made in Europe

WHITE AND BLUE 20MM TAPE 400M ELITE UKAL

Sku. 125UKA304

The UKAL ELITE range consists of 0.3mm diameter **TLD conductors**, offering superior conductivity to the CLASSIC range. This tape offers a guarding distance of 400m and can be used to secure paddocks for wild animals (wild boar, deer, etc.). Highly resistant, it has anti-UV protection for better resistance over time.

- Length : 400 m
- Diameter: 20 mm
- Conductors: TLD 6 x 0.3 mm + 22 PE
- Resistance: ohm/m: 0.12
- Breaking load: 62 kg
- Made in Europe

PROFESSIONAL EQUIPMENT FOR OPTIMUM HYGIENE IN YOUR BUILDINGS!

BLUE JUMPSUIT UKAL

Sku. 101115915

Single-use, non-woven polypropylene coverall. Zipped closure with hood. No shoe cover.

- Blue colour.
- Size XL.
- Box of 50.

100 VINYL GLOVES SIZE L UKAL

Sku. 101115002

The vinyl glove is very thin, flexible and robust. Available in different sizes. Corn starch powder. Latex-free. Complies with harmonised European standards NF EN 455-1 and 2.

- Type of cuff: Rolled cuff, ambidextrous
- Size : L
- Box of 100.

25 DISPOSABLE OVERBOOTS UKAL

Sku. 101140

Polyethylene overboots with elastic for a better hold. For single use only.

- Net weight :± 20,95 gr
- Thickness :± 70 µ
- Size :480 x 390 mm
- Color : Clear color
- Supplied in bags of 25 pairs

BOOT CLEANER WITH 5 BRUSHES KAMER

Sku. 132910005

This professional cleaner will clean your boots effortlessly. After cleaning with water, it will allow you to disinfect your boots thanks to the addition of antiseptic product.

- Connection: ½".
- Width: 24 cm.
- Length: 56 cm.
- Height: 86 cm.
- Number of brushes: 5
- Stainless steel
- Delivered assembled
