HALTERS AND LEAD ROPE OF QUALITY

Nestling in the heart of the Corrèze countryside, Corderie Palus, the family-run rope making firm, has become a reference, over the years, in mechanically- and hand-made rope. Since 1908, the Palus artisanal long rope making firm has been renowned for its age-old know-how that combines tradition and modernity. It has managed to maintain its traditional expertise while taking on board more modern production methods, always attentive to the needs of its market. This comprehensive understanding of the entire manufacturing process guarantees a high level of quality in production and finishing made in France.

Sisal

is a natural fiber natural fiber from the the leaf of Agave (agave sisalana).

Polypropylene

is a synthetic material rot-proof and treated anti UV.

Hemp

is a natural fiber that is glued and then polished using the same traditional methods of rope making since 1908.

Reference	Designation	Material	Diameter	Lenght	Color	Quantity	Gencod
121110003	Halter	Polypropylene	16 mm	3 m	Blue / White	12	3 700393 926167
121110004	Halter	Polypropylene	16 mm	3,5 m	Blue / White	12	3 700393 926174
121110006	Halter	Sisal	16 mm	3,5 m	Natural	12	3 700393 926259
121110005	Halter	Sisal / Polypropylene	16 mm	3,5 m	Natural	12	3 700393 926181
